---

Objective

Motivated and detail-oriented Python developer with hands-on experience in building real-world applications including ML-powered web tools. Seeking to contribute to impactful software development projects and enhance full-stack capabilities in a growth-focused environment.

Technical Skills

Languages: Python, HTML, CSS
Libraries & Frameworks: Flask, Pandas, NumPy, scikit-learn, Tkinter
Tools & Platforms: Git, VS Code, MongoDB
Soft Skills: Communication, Problem-solving, Team collaboration

---

Projects

Crop Disease Prediction System
Designed a machine learning-powered web application that predicts crop health based on input parameters such as temperature, humidity, moisture, and NPK levels. Integrated a RandomForestClassifier for accurate classification and served predictions via a Flask-based user interface.
Tech Stack: Python, Flask, scikit-learn, Pandas, NumPy, HTML, CSS

Banking Automation System
Built a secure, full-stack web banking system where users can register, log in, deposit, and withdraw funds. Implemented authentication and session handling using Flask, with MongoDB as the backend database. Ensured smooth user experience through a clean and responsive UI using HTML and CSS.
Tech Stack: Python, Flask, MongoDB, PyMongo, HTML, CSS

Education

B.Tech in Computer Science
Gurugram University (2021 – 2025)

Intermediate (CBSE)
Crescent Convent School, New Delhi (2019 – 2021)

High School (CBSE)
Crescent Convent School, New Delhi (2017 – 2019)

Language

English , Hindi.
